

ESPLANADE

Angus Work Order System + Notification Response Contact Information

Angus Anywhere is a work order system used at the Esplanade to place work orders to janitorial, engineering and security. Angus also provides a mass communication program that will allow us to communicate urgent messages quickly and directly to you. These messages will include information on security threats, building evacuations, severe weather conditions, infrastructure logistics, building outages, and more. To register, please respond with the following information:
